

HAZARDOUS WASTE	
<i>For any questions or concerns please contact Environmental Health and Safety at 328-6166</i>	
Investigator/Generator:	Phone Number:
Building & Room #:	Department:
Satellite Accumulation Start Date:	
Contents: (Unabbreviated Chemical Name)	Percentages
Amount: (lbs., kg., L., Gal.)	100%
Hazard Classification:	
Flammable <input type="checkbox"/> Toxic (Poison) <input type="checkbox"/> Reactive <input type="checkbox"/>	
Corrosive <input type="checkbox"/> Oxidizer <input type="checkbox"/>	
Generator's Signature:

Instructions:

1. All information must be filled out by the generator.
2. In the area marked “**Satellite Accumulation Start Date**” enter the date the material became a waste or the date the first wastes were entered into the container.
3. In the column marked “**Contents**” list by name all chemicals in the container including non-hazardous chemicals (i.e. water). Do not use chemical formulas or abbreviations.
4. In the column marked “**Percentages**” enter the closest approximation of the percentage associated with each chemical in that container. The sum of the chemical contents must equal 100%.
5. In the column marked “**Amount**” enter the amount of waste (in Gal., lbs., L., kg., etc.) that is present in the container.
6. In the column marked “**Hazard Classification**” check the box for each hazard class of the waste material.
7. When the container is ¾ full, contact EH&S for pick-up. Tags must be completed for each container including “**Generator Signature**”.

Do's and Don'ts

- Do not overfill
- Use tight fitting, screw top lids
- Check for leaks
- Do not use “milk jugs”, “Clorox bottles” or other non-chemical containers.

For additional information, call EH&S 328-6166.
